

Have you heard of “Bytes and Bites”?!

VU  **VRIJE
UNIVERSITEIT
AMSTERDAM**

LOOKING FURTHER

Why?

- Software has become an essential part of research.
- Increasing importance of FAIR software practices.
- Collaborative coding.

-> need for practice.

-> need for community.

Why?

- Software and Data Carpentry workshops at the VU may lay the foundation for first coding experiences, but software development requires practice.

Why?

Who?

Bytes and Bites

- for all programming languages
- for beginners and experts

A poster for 'Bytes & Bites' featuring a central image of a pizza flanked by a USB cable and a computer mouse. The text above the image reads 'Bytes & Bites' in bold black, followed by 'Peer support for researchers and students learning to program!' in orange. At the bottom left is the VU logo and 'VRUJE UNIVERSITEIT AMSTERDAM', and at the bottom right is the hashtag '#TogetherTowardsOpenScience'.

Bytes & Bites
Peer support for researchers
and students learning to program!

VU VRUJE UNIVERSITEIT AMSTERDAM

#TogetherTowardsOpenScience

Who?

- YOU!

What?

- Bytes
 - presentations on interesting topics
 - bring your questions and bugs
 - hackathons and coding sprints
- Bites
 - Pizza!

How?

BYTES & BITES Home

The programming Café @ VU Amsterdam

Do you want to improve your programming skills, ask questions related to programming, and feel yourself part of the broader VU community working on their programming skills?
